03.07.2014

Dear Mr. Gianni Infantino,

We the Trabzonspor supporters which are willing honest football in Turkey, are happy to hear that UEFA has decided to launch an investigation on Trabzonspor. We are thankful for this disincensive support of yours which to be ensuring our club to stay clean in the future as well, no matter what the result of investigation will be.

Because, we love our club that could not receive a championship cup in Turkey for 30 years for believing that it is a clean one and wish it to stay like this always. Whether there are any executive of ours who get involved into any corruption today or in the past, we want them to be enjoined from football by the UEFA without any tolerance.

We do not have any doubt that this decision of investigation about Trabzonspor relies on a serious accusation which is raised by a reliable source and supported with concrete proofs. We expect contents of this investigation such as Videos, Transcripts, Photographs, Money transfers to be shared with us after the investigation for us and the public for us to be able to suspend those executives who are subjected to this investigation immediately from our club.

Furthermore, in case these accusations to be brought in being true, we wish our club Trabzonspor to be dropped from the league as much as the amount of rigged games in the direction of "Astana Regulations" legitimately. This will be providing us to be purified if our body is infected.

These possible bold and just penal sanctions of yours will be making not only our club, but also UEFA transparent. Because ever-increasing rumours in Turkey are on concealed rig scheme are dismissed by UEFA whose some executives are tied up with Turkey-based bribes. You will also be refuting those rumours after penalising our club Trabzonspor legitimately and by dropping it from the league, **if it is involved into a rig**. And we will be sure about your honestly work and never permitting rig cases in Turkey and therefore we will drop our intention to take above-mentioned rumours to the international and Switzerland's Federal courts.

We appreciate your conveying these wishes of ours to the Disciplinary Body.

Kind Regards,

Trabzonspor Supporter/Club Member:
